Dynamic Painting, Galleria 291 Est, Rome 2009

Pittura Mobile - Dynamic Painting

Dynamic Painting is a consequence of our times. Space is scarce and so is time. But the landscapes we visit are increasing, uprooting a necessity. Experiences are fragmented, just temporary flashes.

Medile Siaulytyte tries to catch all this concocting her own original technique where frames are rails to shuffle paintings, fragments of our perception in an ever constant changing, dynamic, picture.

The Future has become once again a place of extreme uncertainty but far from it been dark and gloomy with her work Siaulytyte gives us solid hopes for a brighter tomorrow.

Medile Siaulytyte (born in Lithuania, 1979) following an Arts degree, has worked as a set and costume designer for theatre and cinema in Italy, Lithuania and England. She has participated in collective and personal exhibitions both in Italy and in Lithuania and her work has been published by Lithuania's leading art magazines.
